### 32ND LEGISLATIVE UPDATE

#### KEY LEGISLATION

SB 118 Nullification of Federal Laws

SB 119 Signed and filed Oath of Office

SB 120 Admin. Regulation Review

SB 122 Victim's Rights Definition

HB 63 Alaska Marine Highway System

SB 12 Military Spouse Courtesy License

Amendments:

Ensure Vaccine Bill of Rights

Protect Parental Rights

Eliminate Critical Race Theory

I am a strong advocate for parental rights. Parents have legal rights to education including homeschooling and medical interventions. I worked tirelessly last session protecting medical freedoms and vaccination rights. Other important issues include preserving liberty, your right to privacy, and protecting your legal right to informed consent. It is paramount that we ensure officials Uphold and defend officials Oath to the the State and U.S. Constitution.

*"When the legislative and executive Powers are united in the same person...there can be no liberty; because apprehensions may arise lest the same monarch or senate should enact tyrannical laws to execute them in a tyrannical manner. Again, there is no liberty if the power of judging be not separated from the legislative and executive powers. Were it joined with the legislative, the life and liberty subject would be exposed to arbitrary control; for the judge would then be the legislator.*

INTERIM 907-269-0246 SESSION 907-465-3822

Concerned Legislators listened to many hours of heart-breaking testimony from Alaskans adversely affected by the mandates, COVID shot discrimination, and denial of early COVID treatment. Thank you to the hundreds of Alaskans who attended in person, on Zoom, and watched live streaming on [EmpoweringAlaskans.com](https://EmpoweringAlaskans.com)

## Vaccine Definition Modified

The definition of a vaccine was changed by the CDC: Pre 2015- ...**prevent** the disease; 2015-2021 ...**Produce immunity** to a specific disease; September 2021 ...**protection** from a specific disease. The State of Alaska definition in statute has not changed: A vaccine means...increasing **specific immunity** to life threatening and disabling diseases. Comirnaty is the only partially approved COVID shot and is not readily available in the U.S. All other COVID shots are under Emergency Use Authorization only and cannot be mandated. There have been an estimated 15 court cases won against the COVID shot mandates nationwide.

## Standing Up

In Judiciary, Health & Social Services, State Affairs, and on the Senate floor, I worked tirelessly to protect individual rights, ensure people weren't denied Public Access based on vaccine status, protecting employment, including ensuring people were not discriminated against based on vaccination status. We will continue to fight for your liberty and medical freedom.

If you have specific questions regarding the mis-portrayal by the media or administration please call my staff 907-269-0253

## The Budget

I have a long track record for advocating for a smaller budget. Within my four sub-finance committees there was little appetite for cuts, which led me to a no vote on the bloated budget. I've looked for creative ways to decrease the size of government, following the statute with regards to the PFD, and fighting for the highest PFD possible.

I had the distinct honor of presenting at the Early Treatment Summit Legal Medical Rights. I presented on topics such as Emergency Use Authorization, Informed Consent, and Medical Bill of Rights. Watch my presentation and others, visit [EmpoweringAlaskans.com](https://EmpoweringAlaskans.com). It was a pleasure to spend the evening with medical leaders from across our country and with Alaskan legislators who share the same values and philosophy.

## The Team

I am thrilled we are going to Juneau with a full team:
